FASTK Polyclonal Antibody

Order Information

Catalog#	BGT-ANT-62795
Size/Concentration	100μl

Description

The protein encoded by this gene is a member of the serine/threonine protein kinase family. This kinase was shown to be activated rapidly during Fas-mediated apoptosis in Jurkat cells. In response to Fas receptor ligation, it phosphorylates TIA1, an apoptosis-promoting nuclear RNA-binding protein. The encoded protein is a strong inducer of lymphocyte apoptosis. Two transcript variants encoding different isoforms have been found for this gene. Other variants exist, but their full-length natures have not yet been determined.

Specification

Aliases ： FAST

Swissprot ： Q14296

Host/Isotype ： Rabbit IgG

Antibody Type ： Primary antibody

Storage ： Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.

Species Reactivity ： Human, Mouse

Immunogen ： Fusion protein of human FASTK

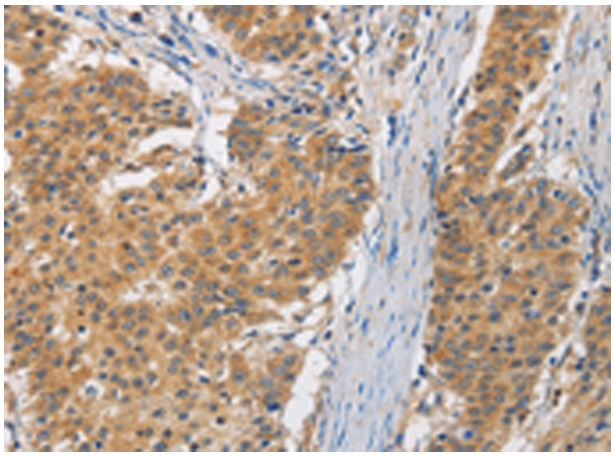

Formulation ： Purified antibody in PBS with 0.05% sodium azide and 50% glycerol.

Application

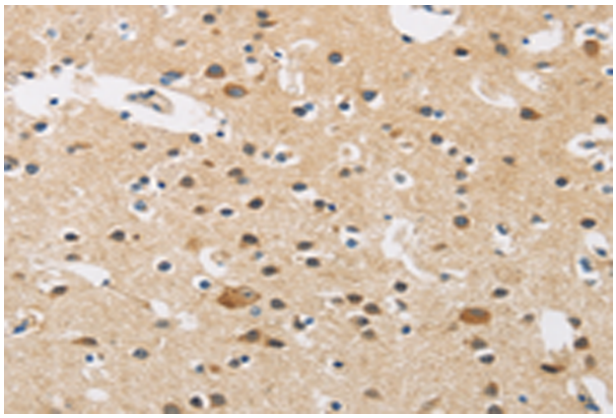

IHC	1/50-1/200
ELISA	1/2000-1/5000

For Research Only

Application Key:WB - Western Blot | **IHC** - Immunohistochemistry | **ICC** - Immunocytochemistry | **FCM** - Flow Cytometry | **ELISA** - Enzyme-linked Immunosorbent Assay | **IP** - Immunoprecipitation

The image is immunohistochemistry of paraffin-embedded Human gasrtic cancer tissue using (FASTK Antibody) at dilution 1/30. (Original magnification: ×200)

The image is immunohistochemistry of paraffin-embedded Human brain tissue using (FASTK Antibody) at dilution 1/30. (Original magnification: ×200)

For Research Only

Application Key:WB - Western Blot | **IHC** - Immunohistochemistry | **ICC** - Immunocytochemistry | **FCM** - Flow Cytometry | **ELISA** - Enzyme-linked Immunosorbent Assay | **IP** - Immunoprecipitation
